Offering Efficient Solutions for your Businesses

Majed Alhokair
Chairman

There is a high degree of competition in the market. To be successful and to excel in the market, companies are required to follow international standards of quality in terms of management and services. Company employees must be trained on quality standards and operational procedures, and undergo regular upgradations.

We provide training, consulting, auditing and certification services on quality management and operations following ISO qualifications to ensure your company meets the requirement of international standards.

Highlights of the Program

- Consulting Services to prepare your company to qualify for ISO certification.
- Training Services to train your employees to comply with ISO standard.
- Certification Services to provide you with ISO certificates.

All the above services are provided all over the kingdom, and for the business sector such as hotels, hospitals, schools, housing compound, restaurant, vegetable shop, barber shops, real estate, shopping malls, department store etc....

We assist your establishments to qualify for and obtain ISO certification

High Quality Training

Our Trainings are certified by international accreditation bodies such as Highfield, IRCA, NEBOSH, BRC, etc..... Trainees will receive certificates from these institutions on successful completion of the trainings.

Training Outcomes

Staff will be trained for required field of specialization and the company will be ready for higher accreditation, such as ISO 9001:2015, ISO 2200:2018 to acquire a leading position in the competitive market.
